ST. PETER’S COLLEGE

ENROLMENT APPLICATION INFORMATION
TEXT BOOKS – BOOK HIRE

In order to keep the cost of text books to a minimum and to make the best use of available resources, a Book Hire Scheme operates at the College. The College guarantees to provide all required text books at all year levels. The cost of book hire is included in the Fees charged (refer to “Education Fees” section below). Students are to purchase their own Bible, Atlas, stationery and computer device.

INFORMATION TECHNOLOGY LEVY

To assist with the significant ongoing cost of maintaining the Information Technology Network and the transition to developing wider access to modern information technologies, the College charges to all students an “Information Technology Levy”. This levy is included in the Fees charged (refer to “Education Fees” section below). Refer also to the section “Student Computer Device” below.

STUDENT COMPUTER DEVICE

The College has a student laptop program in place to complement the delivery of the curriculum. Families are encouraged to purchase an appropriate laptop via the link provided on the College website to ensure that the laptop meets the minimum needs of the curriculum and will work on our network. If you already own a laptop or would prefer to purchase a laptop via another supplier, please ensure that it is running at least the “Professional” or "Education" version of Windows 10.

If you have any questions in relation to bringing an alternative device, we encourage you to talk to the Network Manager in advance as some operating systems are not compatible.

Please refer to the Student Computer Device information including specifications and FAQs.

*Revised 31/08/2016*

**Ratified by:** College Board

**Date Approved:** August 2016
The Melbourne Declaration on the Educational Goals for Young Australians (MCEETYA 2008) recognises that in a digital age, and with rapid and continuing changes in the ways that people share, use, develop and communicate with ICT, young people need to be highly skilled in its use.

To participate in a knowledge-based economy and to be empowered within a technologically sophisticated society now and into the future, students need the knowledge, skills and confidence to make ICT work for them at school, at home, at work and in their communities.

(ACARA, Information and Communication Technology Capability)

In order to support the implementation of the Victorian Curriculum and to ensure that students at St Peter’s are well prepared to face the future, the College has adopted the laptop program for students in Year 7 - 12.

This structure was implemented in 2014 after extensive consultation with parents and the community and then revised over time to ensure the most appropriate means of developing a student’s ICT skills and providing the tools for other areas of learning. It is an expectation that all students from Years 7 through to 12 will have a suitable student laptop for the commencement of school.

In order that all students are able to successfully connect to the College network a protocol for minimum standards has been established. To simplify this, a laptop purchasing portal is provided. Laptops purchased via this portal meet the needs of the College and the learning environment and allow for greater levels of support with things like onsite warranty repairs. If you choose to not use the purchasing portal, please ensure that student laptops meet the requirements detailed overleaf in order to allow students to run the required programs, download eBooks and access the College network. The purchasing portal can be accessed via the St. Peters College website, under the heading ‘Student Services”.

**LAPTOP PURCHASING PORTAL**

If you are asked for a code - spc2018

The use of Apple technology has proven problematic on the current College system and is not recommended. Parents who choose to use an Apple product for their son or daughter must comply with further minimum standards listed overleaf.

**Insurance**

Student owned devices are not covered for loss, damage or theft whilst at school. It is recommended that parents clarify their Home Contents Insurance or seek cover for student laptops via their supplier.

Any queries in relation to the above can be addressed to the following:

Mr. Stephen Bloomer (Network Manager) – technical enquiries.
**BYOD**

Families are encouraged to purchase an appropriate laptop via the link provided on the College website to ensure that the laptop meets the minimum needs of the curriculum and will work on our network. The details below are only required if you choose to purchase a laptop from an alternate vendor. All computers MUST run the “Professional” or “Education” version of Windows 10. This device must meet specific conditions in order to connect to the College wireless network and be compatible with elearning and ebooks used by subject teachers. The device also needs to be portable, lightweight and have appropriate battery life. Six hours of battery life is minimum.

- Experience to date has shown that students struggle with the use and maintenance of Bluetooth keyboards. These are not recommended.
- Keyboards with a physical connection (USB or other) are more reliable and will provide your child with a better all-round experience.
- Student locker space is limited therefore a lightweight, portable device is recommended.
FREQUENTLY ASKED QUESTIONS?

Why aren’t all tablet computers suitable for student use at the College?

Students need to be able to work together in a collaborative environment and to access school resources. Different devices and different operating systems makes collaboration and sharing of ideas difficult.

Some projects require students to use specific software and this software is not always compatible with every computer. Many of the eBooks are also not compatible with all computers and tablet devices.

If students use an iPad, then the student will not be able to download or upload content to our Portal, (Moodle). The iPad will also not run a number of software programs we use throughout the College.

IPads without attached keypads are not conducive to students typing relatively large amounts of text.

Why do we have to meet minimum standards for a Bring Your Own Device (BYOD)?

Minimum standards allow for a consistent environment between students and ensures that school supplied software will work. Other areas include – the operating system must be able to run core educational software for several years. This includes eBooks, subject based applications and Microsoft Office (supplied by the College).

The screen size needs to be able to work with a number of applications. A number of devices available on the market are too small so a minimum requirement has been set.

A physical keyboard is required to assist with accurate typing skills and to alleviate ergonomic issues associated with onscreen keyboards.

The hard drive must be able to have sufficient space to allow the installation of applications and the storage of work. Solid State hard drives (SSD) are recommended as they allow computers to work much faster, whilst also improving battery life. These are also more reliable in a portable device.

What software is included in the package? Are updates included?

The College will be supplying Microsoft Office Professional and Adobe software, such as Photoshop and InDesign. eBooks and subject specific software are also provided for some year levels (depending on subject requirements).

obtaining the consent of the individual (in some cases this consent will be implied); or
otherwise complying with the Australian Privacy Principles or other applicable privacy legislation.

The School may also store personal information in the 'cloud' which may mean that it resides on servers which are situated outside Australia.**

**HOW DOES THE SCHOOL TREAT SENSITIVE INFORMATION?**

In referring to 'sensitive information', the School means: information relating to a person's racial or ethnic origin, political opinions, religion, trade union or other professional or trade association membership, philosophical beliefs, sexual orientation or practices or criminal record, that is also personal information; health information and biometric information about an individual.

Sensitive information will be used and disclosed only for the purpose for which it was provided or a directly related secondary purpose, unless you agree otherwise, or the use or disclosure of the sensitive information is allowed by law.

**MANAGEMENT AND SECURITY OF PERSONAL INFORMATION**

The School's staff are required to respect the confidentiality of pupils' and Parents' personal information and the privacy of individuals.

**ACCESS AND CORRECTION OF PERSONAL INFORMATION**

Under the Commonwealth Privacy Act [and the Health Records Act], an individual has the right to obtain access to any personal information which the School holds about them and to advise the School of any perceived inaccuracy. Pupils will generally be able to access and update their personal information through their Parents, but older pupils may seek access and correction themselves.

There are some exceptions to these rights set out in the applicable legislation.

To make a request to access or update any personal information the School holds about you or your child, please contact the School Principal in writing. The School may require you to verify your identity and specify what information you require. The School may charge a fee to cover the cost of verifying your application and locating, retrieving, reviewing and copying any material requested. If the information sought is extensive, the School will advise the likely cost in advance. If we cannot provide you with access to that information, we will provide you with written notice explaining the reasons for refusal.

**CONSENT AND RIGHTS OF ACCESS TO THE PERSONAL INFORMATION OF PUPILS**

The School respects every Parent's right to make decisions concerning their child's education.

Generally, the School will refer any requests for consent and notices in relation to the personal information of a pupil to the pupil's Parents. The School will treat consent given by Parents as consent given on behalf of the pupil, and notice to Parents will act as notice given to the pupil.

As mentioned above, parents may seek access to personal information held by the School about them or their child by contacting the School Principal. However, there will be occasions when access is denied. Such occasions would include where release of the information would have an unreasonable impact on the privacy of others, or where the release may result in a breach of the School's duty of care to the pupil.
The School may, at its discretion, on the request of a pupil grant that pupil access to information held by the School about them, or allow a pupil to give or withhold consent to the use of their personal information, independently of their Parents. This would normally be done only when the maturity of the pupil and/or the pupil's personal circumstances so warranted.

**Enquiries and complaints**

If you would like further information about the way the School manages the personal information it holds, or wish to complain that you believe that the School has breached the Australian Privacy Principles please contact the School Principal. The School will investigate any complaint and will notify you of the making of a decision in relation to your complaint as soon as is practicable after it has been made.
